The aero club said this offer was made as the result of requests for assistance in the matter of aeroplanes from the militia heads of twenty-four states.

The aero club advocates the distribution of 2,000 aeroplanes throughout the country for defensive purposes.

## OYSTER SUPPLY IS LOW.

**River Boats Have Laid Up for the Holidays.**

Late yesterday afternoon it looked as if visitors to the wharf market today after their weekly feast of freshly shocked oysters would have to return home disappointed. Although there were several vessels lying at the oyster wharf, only one had oysters aboard, and its total cargo amounted to less than twenty bushels. The vessels are waiting an opportunity to go down the river, and as the ice is all gone and a favoring breeze is blowing, it is probable they will sail tonight.

There are down river ten or fifteen vessels that run oysters to this market. Some few of them may have laid up for the holidays, but the larger proportion of the fleet will bring cargoes here as soon as they can get here. It may be that some of the vessels down river may arrive in time for the market today, and the dealers at the wharf are looking for them at any time.
